About

the Author, William Torbitt

The author is a lawyer in the southwestern part of the United States with twenty years trial experience. For two years, he served as a prosecuting attorney in criminal cases during 1949, 1590 and part of 1951. He has engaged in both civil and criminal practices and is licensed in all state and federal courts in his areas and the court of tax appeals.

The author is a typically conservative and successful attorney belonging to the American Trial Lawyers Association, all of his area bar associations, Kiwanis and local civic clubs. He is a family man and is highly respected in the courts before which he practices. He is not critical of the Warren Commission or of any other national agency in connection with the assassination.

The author has participated in cases in the southwest where professional Mexican assassins have been used to commit political murder. He has also participated in the trial of cases in the southwest involving gunrunning activities through Mexico to Cuba, both before Castro was successful and after Castro succeeded and became the subject of overthrow by gunrunners from the southwest.

Close relatives of the gambling syndicate members have used the legal services of Torbitt in complicated cases involving tracing of financial dealings of organized crime in Texas and their foreign connecting links.

More important, William Torbitt has been a member of the strong supporters of Lyndon Johnson since 1948. He supported John Connally in the gubernatorial race of 1952 and earlier was closely associated in the successful congressional race of Lloyd Bentsen in the Texas Valley adjacent to the Mexican border.

Torbitt was also a key political backer of Texas Governor, Allen Shivers.

The author remained close to the conservative Connally.Johnson political organization and was personally acquainted
with most of the people he writes about until he left them in
1963.

Torbitt remains active in Texas Valley - Mexico border politics but at a subdued pace. During his term as prosecutor, he was deeply involved in the investigations and prosecutions of the gambling syndicate and Mafia operations in Texas.

Except for five years foreign service in the U. S. Navy during World War II, Torbitt is a life long resident of Texas. He holds his law degree from the University of Texas at Austin.

The author says "The Fascist cabal who assassinated John Kennedy planned to lay the blame on honest right-wing conservatives

if their first ploy, to lay the blame on Oswald and the Communists was not bought."

The author set out in this work simply to analyze, bring together and present his personal knowledge and the evidence which has been gathered by the warren Commission, Jim Garrison and all other investigative agencies connected with the case.

As is the office of a lawyer, he makes legal deductions from the evidence gathered but consistently refuses to speculate on the evidence even when some speculation is warranted. He save that speculation is a close kin to rumor and, consequently, he resorts only to those legal deductions which courts allow a lawyer to make from the court approved and documented evidence.

This work is an enlargement of a working paper furnished to Torbitt by two agents - one with the Customs Department and the other with the Narcotics Bureau. For obvious reasons, their identities must be protected, but the author gives highest credit to the investigative work of the two well informed officers.

The author especially credits the working paper of the two agents with revealing the heretofore highly secret Defense Industrial Security Command and its intelligence assignments on behalf of the munitions and aerospace manufacturers.

The fascistic totalitarian secret police agency is even stronger and more devious in 1970 and threatens our democracy, he says.
